

Ultimate Midjourney Cheat Sheet

Upscale

- **01 02 03 04**: Four options for upscaling the selected image.
- **U1 01**: Upscale image 1.

Vary

- **01 02 03 04**: Four variations of the selected image.
- **V1 01.1 01.2 01.3 01.4**: Generate four variations of image 1.

Re-Roll Your Prompt

- **01 02 03 04**: Re-roll the prompt and generate four new images.

Commands

- **U1, U2, U3, U4**: Upscale selected image.
- **V1, V2, V3, V4**: Generate variations of selected image.
- Re-roll the prompt.

Discord Interface

- **Vary (Strong/Subtle)**: Generate variations with strong or subtle differences.
- **Vary (Region)**: Select and regenerate specific regions of the image.
- **Upscale (2x/4x)**: Upscale image by 200% or 400%.
- **Zoom & Pan**: Zoom in/out and pan the image.
- **Favorite & Web**: Mark image as favorite or open in web browser.

Bot Controls

- **/imagine**: Creates image from prompt.
- **/blend**: Blends two images.
- **/describe**: Generates prompts from images.
- **/shorten**: Shortens long prompts.

Ultimate Midjourney Cheat Sheet

- **/tune:** Creates a personalized style parameter.
- **/remix:** Enables remix mode for variations on an existing image.
- **/prefer option:** Manage custom options.
- **/prefer suffix:** Adds a suffix to your prompt.
- **/prefer variability:** Toggles image variations.
- **/help & /faq:** Access bot information and FAQs.

Quick Start Guide

- **/imagine:** Creates image from prompt.
- **/blend:** Blends two images.
- **/describe:** Writes prompts from images.
- **/shorten:** Shortens long prompts.
- **/tune:** Creates Style Tuner.
- **/remix:** Enables Remix mode.
- **/prefer option:** Manages custom options.
- **/prefer suffix:** Adds prompt suffix.
- **/prefer variability:** Toggles image variations.
- **/help:** Shows bot information.
- **/faq:** Links to FAQs.

Commands

- **/info:** Shows account and job info.
- **/settings:** Adjusts bot settings.
- **/show:** Regenerates jobs via ID.
- **/subscribe:** Generates account link.
- **/docs:** Quick link to user guide.
- **/ask:** Answers user queries.
- **/public:** Switches to Public Mode (Pro only).

Ultimate Midjourney Cheat Sheet

- **/stealth:** Stealth Mode for Pro.
- **/fast:** Enables Fast mode.
- **/relax:** Activates Relax mode.
- **/turbo:** Switches to Turbo mode.

Prompt Formulas

- **Photorealistic:** *Subject/action, environment/setting, composition, specific camera/lens /film stock, depth of field, lighting conditions, details/modifiers --parameters*
- **Enhanced Composition:** *Composition/balance, subject/action, environment, specific camera/film stock, lighting conditions, details/modifiers -- parameters*
- **Enhanced Perspective:** *Perspective, subject/action, environment, specific camera/film stock, lighting conditions, composition, details/modifiers -- parameters*
- **Enhanced Motion:** *Motion, subject/action, environment, specific camera/film stock, composition, lighting conditions, details/modifiers -- parameters*
- **Enhanced Texture:** *Texture, subject/action, environment, specific camera/film stock, composition, lighting conditions, details/modifiers -- parameters*
- **Enhanced Style:** *Photo style, subject/action, environment, specific camera/film stock, composition, lighting conditions, details/modifiers -- parameters*
- **Simple Photorealistic:** *Photo style, subject/action, environment, specific camera/film stock-- parameters*
- **Cinematic:** *Cinematic still, subject/action, environment/setting, specific camera/film stock, cinematic lighting, details/modifiers --parameters*
- **Enhanced Lighting:** *Lighting conditions, subject/action, environment, specific camera/film stock, composition, details/modifiers -- parameters*
